

Muhammad Fathir Arya

Muhammad Iffan Sabili

Iffan : Hello Fathir, how are you?

Fathir : Hello Fan, I am fine thanks and you?

Iffan : Me too. By the way, yesterday I saw you at great fest techno at JEC. What are you doing in there?

Fathir : Oh. I just saw the new gadgets expected to be popular in 2013 later.

Iffan : What's that?

Fathir : For example gadgets like tablet with android will increasingly popular in the next year.

Iffan : What makes you thinking like that?

Fathir : Because the end of the year is popular. So, is not impossible that the tablet with android will be more popular in the next year.

Iffan : Hmm, You are true. Yesterday, I also saw a lot of consumer bought the tablet than others gadget. So, do you think android will be the giant operating system in world than the others operating system?

Fathir : Oh, I have not been able to predict that. Because there will be many great rivals later.

Iffan : Like iOS and windows phone?

Fathir : Yes, I think so. Oh, are you using android in your phone?

Iffan : Yes, since 2011. Android is released starting in 2008.

Fathir : What the type of android you are using?

Iffan : Android Honeycomb.

Fathir : Anyway, do you know the latest type from android?

Iffan : The newest type is Jelly bean. But, next android will release new type.

Fathir : Do you know what is it?

Iffan : Key Lime pea. I think.

Fathir : Wow, seems android will dominate the operating system in gadget.

Iffan : I agree with that. By the way, what's your operating system in your phone?

Fathir : I still using Symbian in my Nokia.

Iffan : You still faithful with this OS. By the way, What time is it?

Fathir : 2 pm. Do you have schedule now?

Iffan : Yes, I must go now. I will late if I not go now. See you

Fathir : See you too.
